- ### Web Scraping using Python

.Web scraping using python In this project we have Scrape and Parse Text From any Websites in our compiler. Collecting data from websites using an automated process is known as web scraping.

Project publish certificate :
https://drive.google.com/file/d/18zQ0mQ17-DT1MY-Y7Q94K2X1SKDcZ8WN/view?usp=share_link

- ### Snake game using Python

Snake game is one of the most popular arcade games of all time. In this game, the main objective of the player is to catch the maximum number of fruits without hitting the wall or itself. Creating a snake game can be taken as a challenge while learning Python or Pygame.

- ### Smart Medicine Dispenser

As pills have taken such an important role in everyday life there has been the past years an increase in the number of medical neglect cases related to incorrect medication given to patients, such as the case of the nurse who gave a patient a paralytic instead of an antacid that was prescribed by the doctor, causing the patient's death. After seeing so many of these cases it is evidently crucial that the correct pill is taken by the correct person at the correct time, otherwise taking an incorrect one or not taking one at all may expose the patient to several dangerous situations, ranging from mild health issues up to death.
